

Calling Coos, Curry, and Douglas County Teachers and Students!

CoastWatch in the Schools' Shoreline Art and Ecology Project is seeking interested students, teachers and school administrators to join springtime art, ecology, and shoreline workshops!

Learn about king tides, how marine debris from king tides affects snowy plover and other wildlife habitat, and the importance of marine debris clean-up. Work with local artist, Elizabeth Roberts, who has led remote shoreline clean ups and art workshops around the globe.

Funding available!
